

ENCLOSURE- 16.2

WEAKNESS

1. **Location:**

The university is located in remote & rural area i.e., 20 km away from Jhunjhunu & 35 km away from Churu the nearest district place. The Population is mostly uneducated due to low literacy rate of this area. Also University distance is 200 km away from Jaipur airport. Hence find difficulties in arranging faculties due to remote location and unavailability of basic necessities.

2. **Extreme Weather:**

It is very hot in summers & very cold in winters. As Churu recorded the hottest day of the season with a maximum temperature of 49.7 degrees Celsius. And in Cold conditions prevailed in parts of Rajasthan where Churu remained the coldest recorded a minimum temperature of 2.5 degrees Celsius. This extreme weather affects the enrollment of students outside Rajasthan & also faculties are also not ready to stay in such conditions.

3. **Poor Connectivity:**

Being in a remotely rural area there is no proper connectivity of transportation in the vicinity of the University Jhunjhunu is not connected with rail route/air route. The nearest Airport is Jaipur.

4. **Conservative attitude towards Girls Education**

Even the Government is finding difficult to educate girl child & therefore introduces various schemes like BETI PADHO BETI BACHAO, this conservative attitude of Parents discourage Girl Education & Even if they are enrolled there is no regular attendance due to household work.

5. **Lack of Power Supply**

Lack of continuous Electricity & low network facilities Communication becomes difficult.

6. Lack of Skilled Labors

Unskilled & Lack of Labour as also there is a crunch of skilled labor & regular supply of about for development of campus, which is an ongoing process.

7. Drinking Water

There is no supply of drinking water from the government and relies only on Tube well and RO water.

8. Lack of School facilities for Staff Children

There is no good school nearby for staff's children & hence here good faculties are not ready to work for longer duration.

9. Constraints of academic students

Barring the Research Scholars, the strength of the Academic students is quite less due to the rural location constraint.

10. Lack of land availability

Management wish to expand more courses and program but for want of land availability. State government does not allocate land for expansion and increasing the course. University proposes to set up a Knowledge city and a State bureaucrat does not recognize our financial and experience and ignore our proposal.

11. Perspective of Government and regulating body towards private universities.

The Government and regulating body looks private universities differently and make a step motherly treatment.

12. Graduate students do not opt for higher education

Graduate students do not opt for higher education available in the University as they opt for job rather than Post Graduation. It's intellectual loss of our nation due to migration of talented student in search of better opportunities for survival.

13. Negative publicity paralyzes the working of the University.

As usual, any one makes progress in any field; there will be a negative publicity. University too faces some negative publicity through media and mouth publicity of fake degrees/ back dated degrees and time to time enquiries. This creates confusion in the mind of people. This hampers admissions in University.

14. Proposed Courses application are under process

Despite inspecting the infrastructure, our applications for various courses are kept in cold storage.

15. Endorsement/Verification of Degrees by Higher Education department

To verify our degrees for other state and foreign countries, Higher Education needs to endorse the verification done by the University Registrar. However, Higher Education department refuses to endorse without assigning any reason. This makes more difficulty for our degree holders to get job/admission in other state or foreign countries.
